Objective

Dedicated and motivated Computer Science student at Tshwane University of Technology, completing my diploma in June 2026. With a solid foundation in Java OOP and full-stack development, I am actively seeking a work-integrated learning opportunity or full-time internship anytime from now. Eager to apply my technical skills and academic knowledge to contribute to a dynamic software development team while gaining practical industry experience.

.

Technical Proficiency

Core Concepts: Data Structures & algorithms, OOP, Database, Software Engineering, Computer Architecture, Operating Systems, Information Security.

Frameworks & Tools: Linux, GitHub, VS Code.

Databases: MySQL (Database Design & Querying)

Education

Tshwane University of Technology

Diploma in Computer Science (no yet done)

CISCO Networking Academy

Introduction to Cybersecurity

Ethical Hacker

Introduction to Data Science

Computer Hardware basics

Core Competencies

- Software Development Lifecycle
- Problem-Solving & Analytical Thinking
- Team Collaboration
- Technical Communication
- Time Management
- **Licensing:** Valid Driver's License (Code C1)
